Though city's second location of frozen kefir purveyor [Starfruit](#) has been open since Memorial Day weekend, they waited until the crappiest weather week possible to throw their grand opening bash. But wait! There's a ray of sunshine: one free topping with your kefir purchase all day today. In plain terms: free Fruity Pebbles, free gogi berries, free Milk & Honey granola! (We're partial to the little Japanese-style mochi balls.) Toppings are usually a \$1 each, so you're saving ... well, we'll let you do the math.
